**NEW }HEXDUMP{ ALBUM:
PROTOCOL ANALYSIS VOLUME ONE**

**TO BE RELEASED FEBRUARY 11TH, 2011
AT ART PERFORMANCE INSTALLATION
TRANSMUTATION IN BURLINGTON VT**

}hexdump{ is a three person experimental sonic research collaboration that originated in the town of Burlington, Vermont in January of 1995.

The music of }hexdump{ blends an organic approach to writing and performing with a full range of musical influences, including electronic, industrial, noise, dub, ambient and experimental styles. The resulting sound is a unique synthesis that exists in a world of its own.

}hexdump{ hosts a biweekly podcast entitled *the }hexdump{ protocol*. This functions as a running documentation of }hexdump{'s sonic research activities, showcasing from 25 to 40 minutes of new material during every episode.

The new album *protocol analysis volume one* is the culmination of this sonic research.

In celebration of both a full year of *the }hexdump{ protocol* podcast and this new album of material, }hexdump{ is pleased to announce an art performance installation in cooperation with The Off Center for the Dramatic Arts, Burlington, Vermont's premier black box theater.

}hexdump{ transmutation will be an experimental art performance installation that examines the meaning of alchemy in a digital context and the multiple impacts it has on the human species in today's world. Utilizing sound, light, video and interactive rituals, this event promises a unique experience for audience members on both individual and collective levels. }hexdump{ will be debuting a special, hand-crafted limited edition physical media artifact for *protocol analysis volume one* during the evening of this event.

Admission is \$5; doors open at 7pm. The Off Center for the Dramatic Arts is located at 294 North Winooski Avenue in Burlington, Vermont.
